

SIEC PROFILE

ABOUT US

Egypt-based consulting firm established in 2016 that help development organizations, public institutions, and private-sector partners design and implement evidence-based, socially and environmentally responsible solutions.

"We strengthen organizations and communities through data-driven design, inclusive economic development, and environmentally conscious practices"

Our Services

- Program Management
- Institutional & Capacity Development
- Applied Research & MEL
- Entrepreneurship & MSME Support
- CSR, Inclusive Business, & ESG Advisory

What we do

We design, plan, and support implementation of multi-stakeholders programs, in addition to studies, assessments, and decision-making analytics. We design and implement sustainable and inclusive strategies, as well as capacity building programs.

Why Us

- Multidisciplinary expertise
- Field-tested methodologies
- Adapted experience for social and economic contexts
- Practical & scalable solutions
- Commitment to social and environmental value creation

AREAS OF EXPERTISE
